

# THE EMPRESS EXPRESS

VOL. VII. No. 6

EMPRESS, ALTA. THURSDAY, JULY 10th, 1919

Price: \$1.50 Per Year

## Anglican Church

Services will be held in Empress, on Sunday, July 13, 1919, as follows:

Holy Communion and address, 11 a.m.  
Evening and sermon, 7:30 p.m.

F. R. Hillary,  
Priest in Charge.

Copy for changes of address brought into this office after noon on Mondays of each week will POSTIVELY not be taken notice of until the following week, unless other arrangements happen to be made with the publishers.

**RECONSTRUCTION** is the order of the day. If you have formed the Savings habit you are prepared to meet its opportunities; if not, reconstruct your methods and begin today. We have a Savings Department at every Branch.

**THE STANDARD BANK OF CANADA**  
BIDLOSS BRANCH  
W. E. REID - MANAGER  
CAVENDISH SUB-BRANCH  
W. E. REID - MANAGER

## United Church

Sunday, July 13. — Sunday School and Adult Bible Class at 11 a.m. Public worship, 7:30 p.m. Come and bring your friends.

### CUT THE WEEDS

The Village Council are proposing, next week, to cut the weeds which this year are flourishing so luxuriously on our village streets. Property holders are asked to co-operate. Where weeds are cut on private property by the Council, owners will be assessed the costs. Now, is the opportune time, let everybody get busy.

C.P.R. surveyors camp, near Kennedy Bros. ranch, was moved on Sunday to a point eighty miles east on the Milken-Sperring line. It is understood that the right-of-way for the Coronation and Acme lines has been changed to a lower level than the original survey.

Mrs. H. C. Shepherd and daughter, Helen, left on Wednesday, for a holiday visit with friends and relatives at Stayner, Ont.

Wm. Rose has commenced the construction of a modern dwelling-house on 2nd Avenue, west.

Get your typewriter ribbons and supplies, and counter check books, at the "Express" office.

## Maple Creek vs. Empress; the Game

As mentioned in last week's paper, the locals took the fast Maple Creek aggregation into camp, at the big tournament on Dominion Day, at Leader.

The locals made their entire score in the first inning, when they pounded the opposing pitcher from the box. Aston, first man up, hit to pitcher. Sparrow, was safe at first with a snappy drive past short-stop; McNichol drove a long one to left field, taking two bugs, Sparrow going to third. Caldwell, hit to outfield, scoring Sparrow. Pullin, hit by a pitched ball—billed the bases again. McCune hit to right-field, scoring McNichol. Pullin and Caldwell came in on an overthrow and error at third. Pullin and Sparrow went out at first. Four hits—four runs. The game was then postponed on account of heavy rain.

On a very heavy diamond, the locals held the augmented team to three runs. McCune's one hand catch of a fast drive in the second and McNichol's catch of a difficult fly to centre-field were features of the game.

## CAVENDISH

Mr. Fontana new house is nearing completion.

Mr. and Mrs. Hurl and Morrison, attended the picnic at Vau dyne, on Friday last.

Waldo Bursae, who has been in England for the past year, returned last week.

Mrs. Horton, from Medicine Hat, has been visiting Mrs. Lakey the past week.

A bazaar will be held in Cavendish on August 1, under the auspices of the Women's Institute.

The picnic on the first turned out quite a success, despite the rain. A number attended from Atlea, Social Plains, and Bindloss.

Mr. and Mrs. Giles, from Nebraska, who have been visiting for some time at the home of

## Name of Empress Boy in Late Casualty List

In a casualty list issued from Ottawa, on July 5, under the heading of "Believed Dead" appears the name of:

"W. A. MacKay, Empress, Alta."

The sympathy of the community goes out to the parents, whose suspense in the hopes of their son's return has been so long.

Harold Saul, started home on Tuesday last.

Berry parties are quite frequent on the river banks lately, Gooseberries and Saskatoons being very plentiful. Everyone is busy getting his share.

Mrs. Rodgers, the provincial secretary of the Women's Institute in Alberta, will address the Cavendish ladies on Saturday, July 19 at 3 p.m. Every one invited.

The Women's Institute meeting was held on July 3, with about a dozen members present. Mrs. Cunningham gave a recitation and Miss Smyth a reading both of which were greatly enjoyed by all present.

## Provincial Police To Have Air Force

An airplane service for the provincial police force is to be organized in the near future, according to a statement made by an official of the force. According to his statement it is intended to purchase first of all a seaplane to be used in the northern district. The rocky wooded nature of the country in the north, it is stated, would make difficult to secure suitable landing places on the land. On the other hand the numerous lakes and rivers in the district would offer numerous resting places for water and air craft—Ex.

A special committee formed of members of the Swift Current Council acting in conjunction with members from an adjacent rural municipality, are requesting the govt. to bring forward a measure to prevent mortgage companies from shutting down on farmers and business men.

## BIRTHS

—To Mr. and Mrs. W. J. McCaffery, of Estuary, on Wednesday, June 25, a son.

—To Mr. and Mrs. W. F. Peers, of Acadia Valley, on Thursday, June 26, a son.

—To Mr. and Mrs. F. D. Sparrow, at Empress, on Saturday, July 5, a daughter.

What, at first, appeared to be a very dangerous wind and dust storm visited this locality, on Saturday last. Apparently its appearance was more than results indicate. D. Astor, reports a chicken—house and barn destroyed, while near Alaskan two light barns were overturned. "Billy" Mackay also reports a barn wrecked. A heavy shower of welcome rain accompanied the storm.

The stock of the Empress Drug Co. has now been removed to the new premises in the Empress hotel. The store has been well furnished and has a first-class front with large plate-glass windows. This store with the splendidly equipped store of Mr. G. L. Brown, gives Empress two drug stores the equal of which, we believe, would be hard to find in a western town of similar size.

## Grand Theatre EMPRESS, ALBERTA

A First-class  
Program  
for

Friday and  
Saturday

July 11 and 12

A Show equal to the best to be obtained in the city.

Admission: Popular price, 25c.

THE HENDRY DUO—Entertainers and Musicians.

AT THE EMPRESS CHAUTAUQUA

July 31--August 6

## A SAVINGS ACCOUNT

It is always well to have a Savings Account upon which interest is regularly paid and from which you are free to draw at any time should you have a good opportunity to buy stock or feed. A Savings Account is Ready Money.

## THE CANADIAN BANK OF COMMERCE

## Do You Know the 9 Points?

1. A good deal of money.
2. A good deal of patience.
3. A good cause.
4. A good lawyer.
5. A good counsel.
6. Good witnesses.
7. A good jury.
8. A good judge.
9. Good luck.

Genuine Aspirin  
Has "Bayer Cross"

Tablets Without "Bayer Cross" Not Aspirin At All  
Get Genuine "Bayer Tablets" of Aspirin in "Bayer Packages," Plainly Marked With the Safety "Bayer Cross"

There is not a penny of German money invested in "Bayer Tablets of Aspirin," nor will a German citizen profit by its sale or ever be allowed to acquire interest.

The original, world-famous Aspirin, marked with the "Bayer Cross," is now made in Canada and can be bought at your druggist's in handy tin boxes of 24 tablets and larger "Bayer" packages of millions for pain, headache, rheumatism, toothache, colds, grippe, neuritis. Aspirin is the trade mark, registered in Canada, of Bayer Manufacturing Co. of Monroeville, Pa., of Salicylic Acid.

## A Foreigner

"The professor seems a trifle cast down."  
"Just a little flabbergasted. He uses very correct English."  
"Yes, a slung slung! Had to call a floorwalker to interpret for her. She thought the professor was some kind of a foreigner."

## Worth Seeing

"Lady outside wants to see you."  
"I wonder if she's worth seeing?"  
She is. Blue eyes, golden hair, perfect figure. Oh, boy!"

A man can get a good pair of shoes for \$6, but a woman must pay more, because her shoes come higher.

BEANS**

W. CLARK

## Japan Tourists Goal

30,000,000 Yen From Influx of Foreigners in 1918  
Japan receives from visitors to her shores a sum exceeding the value of her exports of coal.

The mikado's empire is estimated to have received more than 30,000,000 yen from the influx of foreigners in 1918, or \$20,000,000 more than the total exports of coal made by Japan. Japanese coal dominates the fuel situation in this part of the world.

The disorders in Russia have sent visitors of this nationality up, from approximately 2,000 a year to over 8,000 in 1918. Those of British nationality have remained at an average figure of 3,000 a year, their movement not being appreciably affected by the great war so far as volume is concerned.

The Dutch have increased direct, now numbering approximately 500. The French have doubled their number. French subjects to the extent of 600 passing through Japan in 1918. The restraints resulting from the war have been most pronounced in the case of the United States citizens.

## Where Babies Are Sailed

The strange custom of sailing newborn babies is still practiced in certain regions of Europe and Asia. The method varies with the differing nature of the peoples employing it. The Armenians of Russia cover the entire skin of the infant with very fine salt. This is left on the baby for three hours or more, when it is washed off with warm water.

A mountain tribe of Asia Minor are even more peculiar in this regard than the Armenians, for they actually keep their new-born babies covered with salt for a period of 24 hours. The modern Greeks also sprinkle their babies with salt. The mothers imagine that this practice brings health and strength to their offspring, and serves to keep away the evil spirits as well.

## SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea are the most dangerous of ailments the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve all the troubles of the infant occasionally to the well child will prevent the danger of the illness. The tablets are guaranteed by government analysis to be pure and safe. They are especially good in summer because the stomach is weak and prone to be upset by the heat and moisture. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Says Communism Will Succeed In Hungary

Bela Kun Declares Allies Should Raise Blockade  
Budapest.—The allied policy to prevent Hungary from becoming a non-interference in our internal affairs, and the allies also should raise the blockade. Bela Kun, foreign minister of Hungary, declared today in a speech to the Associated Press correspondent, in discussing assertions that Hungary had been interfering with the affairs of the Austrian republic. He also expressed confidence that communism would succeed in Hungary.

Resuming his discussion of the reported friction with the Austrian republic, Minister Kun said: "It is altogether untrue. Austria is seeking with this allegation to deceive the public so that it may be enabled to continue the domination of Hungary." It is also untrue that we bought rifles and guns from the Italians. Our policy is peace. Sooner or later our frontiers, now impossible, will be altered, when the peace is restored, and the situation better, and when the affairs of the Austrian republic are placed decided by reason.

A man always tries to follow the straight and narrow path when it comes to shovelling snow.

Poultry is often the unexpected wages of the pen.  
The more linings a man has the more he enjoys his poultry.

## International Air Race Announced

Toronto.—An international aerial race which will start simultaneously from Toronto and New York, will be held on August 25 with the Prince of Wales as the starter, it has been announced here. Stow will be made at Buffalo, Syracuse and Albany.

A prize of \$5,000 and a trophy have been offered by John M. Bowman, New York. It is expected there will be more than two score entries.

The Poe of Indigestion.—Indigestion is a common ailment and few are free from it. It is a most distressing complaint and often the suffering attending it is most severe.

The best remedy is Farnier's Vegetable Pills taken according to directions. They rectify the irregular action of the stomach and regulate their action. For many years they have been a standard remedy for dyspepsia and indigestion, and are highly esteemed for their qualities.

The professor of elocution was instructing the young man in the art of public speaking.

"When you have finished your paper," he said, "you must bow gracefully and leave the platform on tip-toe."

"Why on tip-toe?" queried the youth.

"So as not to wake the audience," replied the professor.

## Minard's Lintiment Cures Distemper

It is said that gentianism is better than riches—but most people are willing to take chances with the riches.

A proverb is an undisputed fact with whichers on it.

## The Oil for the Athlete.—In rubbing down, the athlete can find no finer oil than Dr. Thomas' Eucalypti Oil. It renders the muscles and sinews supple and strengthens them for strains that may be put upon them.

It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

## Hung Hats on Kitchen's Peg

"Hang your hat on Kitchen's peg" was the word that went down the line when a group of United States fighting men passed through the peer's lobby in the House of Lords yesterday. And every American took off his hat and hung it for a second on the peg that bore the name of Lord Kitchen. It was a breach of regulations, but a showing of regard for the dead field marshal that the British appreciated.

## Minard's Lintiment Cures Gargles in Cows

Ship Centenarians  
The ship of today, even without any submarine risks, cannot be expected to attain the ripe old age of its forerunners. Nelson's Victory was over 40 years old when she took part in the battle of Trafalgar, and the Betty Cairns, which, according to tradition, brought over William and Mary in 1688, survived until 1824, when she was wrecked at the mouth of the Tyne.

Lloyd's Register for 1910 contained the Olive, built 1819, and, writing in 1833, Admiral Martin recorded that the small vessel in which James H. Cook sailed his schooner was a one-day voyager, and was converted from one day to another.

## Kaiser May Submit To An Enquiry

The Hague.—The former kaiser's attitude toward the allied demand that he be held responsible for the war is dependent on the lengths to which the allies intend to carry their examination. It was reported today that the Kaiser would not be so unofficiously to give himself up to an allied tribunal if it merely passed judgment on the role he played in the war, but in violating neutrality and in nonobservance of international law.

A woman may pretend to be convinced against her will, but the never is.

## A Wonderful Discovery Cures Catarrh Permanently

Formerly doctors prescribed stomach treatment for Catarrh and Proctitis. They seldom cured Catarrh, but they cured Proctitis. Today the advanced physician fights Catarrh with medicated air. He uses the lungs, nose and throat with the antiseptic vapor of Catarrhose. It is easy then for Catarrhose to cure. It contains the essence of pure pine balsams, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhose. The dollar outfit lasts two months and is guaranteed to cure; small size \$1.00 outfit lasts six weeks and is guaranteed to cure. Catarrhose Co., Kingston, Ont.

## Britain's Gigantic Losses During Drive

Minister of Munitions Asks for Vote of Provision of 185,000,000 Pounds

London.—In the house of commons P. G. Kellaway, deputy minister of munitions, asked for a vote of a provision of 185,000,000 for the year ending March 31, of which £90,000,000 is an estimate of the war materials the balance represents supplies to other departments of the government, including estimates of the war office, air ministry and local government board, the last mentioned being purchases for the government's housing scheme.

The total expenditure of the ministry of munitions since its establishment was £1,834,079,941. Mr. Kellaway revealed that the British losses in materials during the German offensive in the spring of 1918 were 1,000 big guns, 10,000 tons of ammunition, 4,000 machine guns, 40,000 rifles, 700 trench mortars and 200 tanks, yet within a fortnight all had been replaced, and in many cases with superior weapons. On the day the Hindenburg line was broken, the British fired 94,000 shells more than the Germans. Fifteen thousand tons of poison gas were supplied in 1918 alone.

The introduction of a cost system saved the country £30,000,000 in the ministry of munitions alone; 7,344 contracts, involving £102,000,000, were still running, and disposals by the department had realized £130,000,000. It was getting such good prices for the state that it was now accused of profiteering. Six hundred and fifty thousand pounds sterling has been realized from the sale of motor transports during the last three weeks.

## Statue of Queen Victoria for B.C.

London.—A bronze statue of Queen Victoria, 13 feet high, and weighing two tons, is shortly to be conveyed by steamer for the erection in the parliament house garden at Victoria, B.C. It was fashioned some years ago for the British Columbia government and it is hoped that it will arrive in time to be unveiled by the prince of Wales.

State of Ohio, City of Toledo, Lucas County, I, J. J. Chenevix Trench, Mayor of the City of Toledo, do hereby certify that the within and foregoing is a true and correct copy of the original of the same, as the same appears from the records of the City of Toledo, Ohio, and that the same is a true and correct copy of the original of the same, as the same appears from the records of the City of Toledo, Ohio.

Witness my hand and the seal of the City of Toledo, Ohio, this 26th day of December, 1918.

(Seal) J. J. Chenevix Trench, Mayor of the City of Toledo, Ohio.

Japan Sends More Troops to Russia  
Tokio.—Japan is sending reinforcements, consisting of a brigade of infantry, a regiment of cavalry, and engineers, to Vladivostok, because of conditions existing in the maritime province of Siberia, it is officially announced. The Japanese army has been active in this region, and the announcement says that it is especially valuable Japanese contingents, causing casualties.

"Black Watch." The Best Black Watch. "Black Watch" tobacco is the best.

Help for Farmers  
Regina, Sask.—According to the announcement of A. E. Wilson, seed grain commissioner of the Dominion government with headquarters here, the sum of \$5,000,000 was expended for the relief of farmers who experienced a shortage of crop with consequent lack of seed grain, in the three prairie provinces of Manitoba, Saskatchewan and Alberta. Nearly 4,000,000 bushels of seed grain were distributed between last fall and this spring.

Worms sap the strength and undermine the vitality of the child. Struggle then with Mother Graver's Worm Expeller to drive out the parasites.

Bonus for Ranks of Canadian Navy Officers.—In order to secure 500 officers and men required for service in Canadian navy, the department of naval service has decided to offer a bonus over and above the present approved rate of pay and becoming effective in the case of all who joined the navy subsequent to June 1, 1919.

The bonus will be 75 cents per day for seamen, \$1 per day for petty officers, sub-lieutenants, lieutenants, lieutenant commanders, commanders, captains and equivalent ranks.

The bonus is given because of the impossibility of securing recruits at the present rate of pay. Provision is also made for married allowances to married men and officers.

Girls are delicate vessels, which require a small fortune every season to keep them in salts.

There is a slip after the cup touches the lip.

W. N. U. 1271

**SAVE ON YOUR SHOE BILL**  
Make every pair of shoes you buy give the longest possible wear. Use on them the very best polish.  
**GOLD LEAF SHOE DRESSING**  
contains oil to soften and preserve the leather. Gold Leaf is economical—a little on the dauber produces a black, long-lasting shine. No rubbing required.  
Remember the big red package.

**Spring Fever—What Is It?**  
THREE o'clock in the afternoon—and absolutely no "pep." You call it spring fever, but it is  
When you are constipated waste matter re- mains in the intestines, decays, forms poisons which are absorbed into your blood and carried by it to every cell in your body. When your cells are thus poisoned, of course you have no "pep."  
Pills, salts, mineral waters, castor oil, etc., merely force the bowels to act, and make constipation and self-poisoning a habit. Nujol is entirely different from drugs as it does not force or irritate the bowels.  
Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.  
Nujol helps Nature establish ease, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle of Nujol from your druggist today and watch your "pep" come back.  
**Warning:** Nujol is sold in sealed bottles bearing the Nujol Trade Mark. All druggists, hotel and restaurant owners, and grocers keep Nujol.

**Nujol**  
For Constipation  
"Beware of cheap imitations."  
"Beware of cheap imitations."

**Alfalfa Supreme**  
By Chemical Test  
Found to Be Much the Highest in Protein  
In a report issued from the chemistry department of the Manitoba Agricultural College, corn, Sudan grass, millet, alfalfa, cereals, rape, and buckwheat are compared as to their feeding values. The analysis turns out very favorably to alfalfa, which in its natural state is found to be about double its closest competitor among the cereals in protein, 50 per cent higher than Sudan grass in carbo-hydrates, and much the highest in fat. On account of the stems the alkali content is fairly high, however. Sudan grass is medium high in protein, very high in heat-forming elements (it should be especially valuable here in winter feeding), and contains nearly 15 per cent of fat. Cereals and peas, and corn stand about third in the list as to feeding value. The high saccharine content of corn is of special value in feeding dairy animals.

**ON THE MARRIAGE DAY**  
Romance ceases and history begins and corn begins to go, too, when "Putnam" is applied—it takes out roots, brands old men. Nothing to sure and pleasant as Putnam's Corn and Wart Extractor; try "Putnam's" 25c at all dealers.  
**Soldiers Take Up Alberta Land**  
Total Applications for Loans Are Over Four Thousand  
Edmonton, Alta.—Alberta leads all other provinces of the Dominion in the number of soldiers taking up farming through the efforts of the soldier settlement board.  
The total applications made in Alberta for loans are just over four thousand, the highest in any other province, while the total number of loans already approved is 1,122, more than one hundred more than any other province, east or west.  
During the first two weeks of June more than \$2,000,000 had been loaned to soldier settlers, while the total loans since the establishment of the board in Canada now have reached the huge sum of fourteen and a half million dollars.

A word to the wise is sufficient—if you call him a liar.

The bigot is always sure of something he knows nothing about.

W. N. U. 1271

**DODD'S KIDNEY PILLS**  
ALL KIDNEY DISEASE  
"I have been suffering from kidney trouble for many years, and have tried many remedies, but nothing has helped me until I found Dodd's Kidney Pills. I have now been using them for several weeks, and my kidneys are now in perfect health. I feel much better, and my back is no longer painful. I can now sleep at night, and I am able to do my work as usual. I highly recommend Dodd's Kidney Pills to all who suffer from kidney trouble."—J. H. Smith, Esq., Toronto.

## Nine Countries Represented at Chautauqua

In selecting talent for the Chautauqua this year, practically the entire world has been searched—Austria, India, Central Europe, China, Japan, Syria, Italy, besides the United States and Canada are represented, and the Dominion Chautauqua feel that the result has amply justified the energy and money expended. We also feel that the Chautauqua patrons will unanimously endorse this statement—that the 1919 Chautauqua program is the best ever presented in Western Canada.

The program as arranged embodies music, entertainment, inspiration and education—covering a broad field of subjects and those of greatest interest to all at the present time. The subjects covered by the lecture staff are of wide range, and are aimed to meet the needs of the day in developing the thought upon questions of international import, reconstruction, travel, education, civil and political government.

The musical programs contain the best of all classes, ranging from national, folk songs semi-classic to the best of modern classical compositions. In presenting such a program to our Chautauqua patrons there is mental food for all, no matter what direction the mind takes in search of development.

From the very opening number on the first day to the closing note of the Tamburica Orchestra, on the sixth night, there is something worthy of the attraction of the most exacting and discriminating in oratory and music.

## SOCIAL PLAINS

On June 25, the Social Plains Branch of the Women's Institute met at the home of Mrs. Vern Meade. A good attendance of members and visitors were present. Each member answered the roll call with a good quotation. After the business of the meeting was disposed of, all members were busy with Red Cross sewing. Lunch was served, and during this period two of the members gave a demonstration of cooking. One was brown bread made from bran, which was excellent, the other was fruit compote, which was delicious. The recipes can be secured by writing to the Secretary.

On the evening of July 20, our Provincial Secretary will address the meeting at the Social Plains Schoolhouse. All are welcome, and we will be glad to have you come and hear what the speaker has to

say regarding the work which is being done by the Institutes. Our next meeting will be at the home of Mrs. O. Johnson, July 30.

## C.P.R. Work to Begin At Once

Tenders are being called and contracts will probably be let this week for the Canadian Pacific Railway's construction program for 1919 in Saskatchewan it was announced July 8th by D'Alton C. Coleman, vice-president and general manager of C.P.R. Western lines in an interview in Winnipeg with a correspondent of the Morning Leader, Regina, Sask.

The work to be undertaken is grading, bridging, etc., of sections of the following lines: Rose town, south, Vidora, east, Empress-Milden line, Leader south and Langman north.

Mr. Coleman said it was the Company's intention to complete the sections mapped out of these extensions this fall, and he hopes to have the work under way by August 1. The C.P.R. will furnish the materials and no difficulty is anticipated in connection with the supplies. It is also expected sufficient labor will be available for the purposes of the contracts.

H. P. Gregg left this week on a business trip to Brooks, Alta.

Mr. and Mrs. J. C. Boyd and Gerald Johnson returned from Calgary, on Sunday.

Mrs. R. W. Perry, of Highmore, S. Dakota, is the guest of her daughter, Mrs. J. N. Anderson.

A party of Dominion Topographical surveyors are camped on the G. Leach farm, north of town.

## Bunts From the Bat

Well—where do we go from here?

"Mr. Kane, let me pitch"—  
G. S. T.

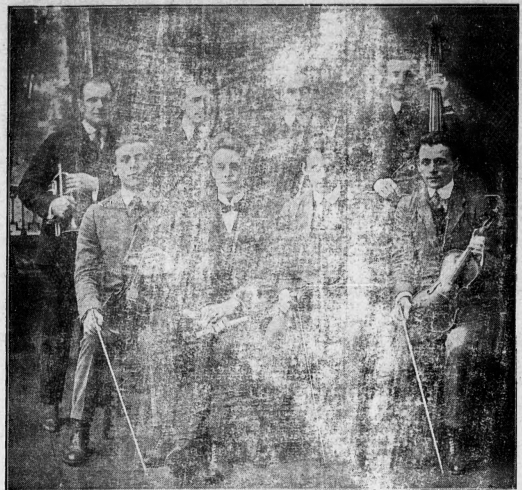

Wanted—Invention to remove Leader mud from baseballs without taking off the cover.

Why not make arrangements for some more real ball during Chautauqua week? Do we hear any murmurs?

We noticed a new way of sliding bases, during the game at the Vandyne Picnic. All that is needed is a pair of real sharp plates on the basemen's shoes.

Moved by "Slim" Sparring and seconded by "Jack" McNichol, that "bean ball" be discarded, and that in the event of a pitcher using same, batter is entitled to eleven bases.

By the way—we would like to see Caldwell worked out in the box again—no use in keeping our light under a bushel (or peck or whatever it is) all season.

CANADIAN OVERSEAS ORCHESTRA

At Empress Chautauqua, July 31 to August 6

### Dry Farming Commandments

1. Thou shalt have no other occupation than farming.

2. Thou shalt follow thy land every third year, being careful to plow it both early and deeply.

3. Thou shalt cultivate thy fallow and not allow weeds or any other thing that is green to grow thereon, for the winds to blow through it, for in such way the moisture which thy fallow should conserve will be wasted and thy days will be nothing but labor and sorrow.

4. Thou shalt not despise the harrow, but shalt use it even while thou plowest, and place thy chief reliance upon it thereafter, whether in early spring (except on drift fallow), late spring, midsummer or autumn.

5. Thou shalt sow good seed early and down into the moisture, lest peridventure it cometh not up betimes. He who soweth his seed in dry soil casteth away many chances of reaping.

6. Thou shalt not overload thy dry land with seed, even as the merciful man does not overload his ox or his ass. Thin seeding best withstanding the ravages of drought and hot winds.

7. Thou shalt keep on thy dry farm such kinds and numbers of horses, cattle, sheep, pigs and poultry as the water supply maketh possible, and thou can grow pasture fodder, root and grubs for. Thou shalt thus be protected against adversity, and thus shalt thou give thy children and children's children cause to call thee blessed, inasmuch as thou did not too greatly dissipate in thy lifetime the fertility stored in thy soil through many thousands of years.

8. Thou shalt not live unto thyself alone, but shalt join the Grain Growers' Association, the agricultural society in thy district, or any like-minded organization that is good. Through these thou shalt work unceasingly for thy district and the upbuilding of agriculture.

9. Thou shalt study thy dry land farm and its problems unceasingly, and ponder on ways and means whereby its fruitfulness may be increased, keeping always in memory the fact that not alone by speeches and resolutions, but also by intelligent and timely work shall production be increased and the economic salvation of thy country be wrought.

10. Thou shalt not covet thy neighbor's big farm. Thou shalt not covet thy neighbor's big four, nor his mortgage, nor his hurry, nor his worry, nor anything that is thy big neighbor's.

The Gilnockie Grain Growers' Association are holding a picnic on the farm of John Palmer, sec. 21, tp. 19, rge. 19, on Peace celebration day, Saturday, July 19. A good program is advertised.

## The Coming Of Peace

The 28th day of June will stand for all time as one of the most memorable dates in the calendar, and as one of the most important anniversaries for future generations to celebrate, for it was on this date in the year of grace, 1919, that the Treaty of Versailles was signed, thus officially ending the Great War which began in 1914.

By a strange coincidence, it was on June 28, 1914, that the Archduke Franz Ferdinand, heir to the throne of Austria-Hungary, was murdered at Sarajevo. It was this tragedy that was assigned as the reason for Austria declaring war on Serbia, and thereby precipitating the terrible conflict which shook the world to its very foundations. The signing of the peace treaty on June 28, nine years later, was not by pre-arrangement, the date having been postponed from time to time in order to complete negotiations, and finally to enable the world to secure the consent of some of her leading men to assume the responsibility of affixing their signatures to the document.

It is not necessary at this time to recall the detailed terms of the peace treaty which Germany, after many declarations that she would never sign, finally bowed to the inevitable and signed unconditionally. Suffice it to say, that it is probably the most humiliating admission of defeat, and the acceptance of the most abject terms of punishment since any nation in all the world's history ever signed. Yet Germany had to sign. The only alternatives were anarchy at home, and the probable occupation of the whole country by the armies of the allies.

It is a stern peace, but a just peace. It had to be stern in order to be just. Even so, it is undoubtedly a more merciful peace for Germany than Prussian militarism would have enforced on the allies had Germany proved victorious in the war. It is proven by the statements of leading German statesmen and semi-official newspapers made in the days when victory for Germany appeared to be not at all improbable.

The great work of world reconstruction has now to be undertaken. It will call for the patience, wisdom and energy of the statesmen and people of all nations in order that it may be successfully accomplished. The problems confronting the world are a return to peace are quite as great as the problems which arose in the prosecution of the war; in fact, the peace problems are more complex and will be found even more difficult of solution. They cannot be solved in a year, or in several years, but for long years, even generations to come, the nations will find it necessary to deal with acute questions which bring their origin in the Great War.

The allies will for a long time to come have to remain prepared and

watchful of Germany. Germany, although defeated and accepting the terms imposed upon her, is far from repentant. There has been no regeneration in Germany. At heart the people are still arrogant and defiant but for the time being impotent and helpless. The spirit of Germany has not changed, and although it may now style itself a republic and not an empire, there is lacking any real evidence of the sincere acceptance of democratic institutions.

Throughout the war Germany proved to be a treacherous and barbaric foe. She reneged her solemn treaty obligations as "scrap of paper." Of the eve of the signing of the peace treaty she gave further evidence of the fact that she has not reformed in this respect. The sinking of the surrendered German fleet at Scapa Flow was a characteristic piece of German treachery and a violation of the law of war. By the terms of the armistice Germany was required to surrender her fleet. She accepted those terms. The fleet was interned at Scapa Flow. Then on the eve of the signing of peace the German fleet scuttled the ships, destroying property which did not belong to them.

By this act the German navy added to the growing infamy to its history. Its record all through has been one of villainy. It skulked in its harbors and made war by submarine attack; it surrendered without fighting; and after the surrender it treacherously destroyed the surrendered fleet. The act, without parallel in the history of the world, imposes on the allies the necessity of keeping a close eye on Germany in the future to ensure that she lives up to the terms of the peace treaty she has now signed.

Like a Grip at the Throat—For a disease that is not classed as fatal, there is a growing infirmity which causes terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted, and finally, though the attack passes, is left in unceasing dread of its return. Dr. F. D. Drugg's Asthma Remedy is a wonderful remedy for this disease. It relieves the restricted air passages, as thousands can testify. It is sold by dealers everywhere.

## Wind And Thermometer

You Cannot Make Mercury Contract By Fanning Thermometer

There is a good deal of sense in this answer in a contemporary who says, "No wind does the wind affect the thermometer?" "No. Wind is simply the air in motion, and the motion of the air does not change its temperature. Wind coming in contact with the human body, produces a sensation of coldness, not because it is colder than the air at rest, but because its rapid change of contact with the body causes a sensation of coldness by evaporation. This sensation may be caused by rapid contact of warm air with the body as well as by the rapid contact of cold air. The use of a fan in warm weather brings relief not by cooling the air, but by setting it in motion and bringing rapidly changing layers of air in contact with the human body. But it would not have that effect on an inanimate and unresponsive thermometer. You cannot make mercury contract by fanning the thermometer."

Saskatchewan Beef for Italy Regina, Sask.—Good, Ironside & Pares have shipped 17 cars of Saskatchewan beef, valued at \$170,000, direct to Italy. Ten cars from Regina, three from Moose Jaw and four from Saskatoon.

Twenty-three thousand screws are used in the making of an ordinary airplane, and several hundred pieces of wood in a single wing.

Some women are not as bad as they are painted.

Why isn't prohibition a beer check?

## Many Eskimos Died From Starvation

Caribou Failed and Fish Were Difficult to Get

Prince Albert—Famine stalked last winter among the Eskimos of Chesterfield Inlet, Hudson Bay, according to a report just received from Father Turqueti, O.M.I., and the mission at Chesterfield is much worried for lack of news of the Eskimos who formerly visited the station. The caribou have failed and there is no fish, writes Father Turqueti in a letter to friends in Prince Albert. Father Turqueti is the French priest who, about eight years ago, sent the report that the remains of Andre's balloon had been found and set the world agog with the news. He is at present at Chesterfield Inlet with Father Pigeon studying the Eskimo language and carrying on the work of his mission. The first inkling that hunger and want were approaching came last November when the famished Eskimos, trying to reach the mission, fell in a faint on the ice of the lake near it. It was not until the following day that the Eskimos became conscious, when he gave word of his old age, whom the missionaries finally discovered under the remains of an old tent torn by the wind. He was stoically waiting death.

Many Eskimos died, for the Eskimo had no food, no great stock of food. When the caribou failed and they tried for fish, they were difficult to get. In February it was a day's work to chop a hole through the ice, and even then the fishing could be only done in the deep places. When a snowfall came no one could venture out, and death stared them in the face. Last year forty or sixty Eskimos perished in this way. A short time ago the missionaries learned of one family where five children died of hunger.

## Cold Storage

It is a very queer thing, but there are many Canadians paying high prices who do not understand why forty million dollars worth of grain is held in cold storage in Canada."—Kingston Standard.

Minard's Liniment Co., Limited, Gents.—I cured a valuable hunting dog with MINARD'S LINIMENT after several veterinaries had failed without doing him any permanent good.

Yours, etc., FRANK R. GAGNE, Prop. of Grand Central Hotel, 200, Grandview, Ave. 2, N.Y.

## Swiftest Dog in the World

The swiftest dog in the world, the borzoi, or Russian wolfhound, had made record runs that show 75 feet in a second, while the gazelle has shown measured speed of more than eighty feet a second, which would give it a speed of 4,800 feet in a minute if the pace could be kept up.

## YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store, "Give me a quarter of an ounce of 'Finger'." This will cost very little but is sufficient to remove every hard or soft corn from a foot. A few drops of this new compound applied directly upon a tender, itching corn, will relieve the soreness instantly, and soon the entire corn, root and all, drops up and can be lifted out with the fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while free from corns, it drives in a new and simply shreds up the corn without irritating the surrounding tissue or skin. Don't let false fear of infection or loss of time from whitening at his corns clip this out and make him try it.

## Plans Trains Of Air Cars

The First Step Toward the Creation of an Aerial Train The keenest interest has been aroused in various circles in London by a report from the Hague that Herr von Reuter, the Dutch inventor of German battleships, and proprietor of the works that manufactured it, proposes having himself seated in one airplane and towed by another plane. This is the first step toward the creation of an aerial train, the idea being an aerial locomotive with a chain of cars, similar to a modern railway train.

Herr Fokker has a specially constructed monoplane without many ready for the experiment, but has great difficulty in getting an airplane to lead the airplane. A flying train of air cars, some for baggage and some for passengers, is said to be the dream of this Dutch inventor.

## TIRED PEOPLE ARE DEBILITATED

Full Health and Strength Can Only Be Regained By Enriching the Blood

People who are tired all the time and never feel rested, even after a good night's sleep, are suffering from a deficiency of blood. This is a condition recognized by doctors as general debility. A medical examination might show that every organ of the body is acting normally, but the pallor of the face will usually show that the blood is weak and watery. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body, but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the whole system. The first sign of returning health is a better appetite, an improved digestion, a quicker step and a richer color in the cheeks. The rich red blood, reaching every organ and muscle, carries new health and vigor. The nerves are quieted, sleep becomes more refreshing, and with persistent treatment and a good diet the patient is once more enabled to enjoy life. The case of Mr. V. D. Dumas, R. E. No. 4, Tillamook, Ore., illustrates the result, valued at Dr. Williams' Pink Pills in cases of this kind. Mr. Dumas writes: "I was troubled with pain throughout my whole body was extremely nervous, did not sleep at night, and was suffering from general debility. In spite of different treatments this condition persisted. I was growing weaker and weaker and had almost lost my weight to 130 pounds. I was unable to do any work. Then I began taking Dr. Williams' Pink Pills, and in a few days I was able to do a little work. In a few days there was a noticeable improvement in my condition. I continued taking them until my whole body was as well as ever I did. While taking them I gained weight to 170 pounds, and I can now do as good a day's work as anyone. I am no longer feeling ill, it is to take Dr. Williams' Pink Pills and they will put me back to work." At the first sign that the blood is out of order, take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail. 10 cents a box, or \$2.00 for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Talk Of Teuton Exodus

5,000,000 Will Leave Germany to Escape War Burden

New York—Karl H. von Weizsaeck, the Berlin correspondent of the Sun, cables in Paris: Convinced that peace will come without delay, the great army of unemployed, and less on the chances of the ambitious to achieve a career or attain independence in life, preliminary preparations are being made for emigration by hundreds of thousands of Germans.

The movement is taking active shape through organizations which are being formed and systematic plans are being worked out in a characteristic methodical way. The government, realizing the crippled industries, limited raw materials, the absence of an army and navy, and the mercantile marine, will have perhaps several millions of men upon its hands for whom it will be difficult, if not impossible to provide a means of livelihood, is more or less openly encouraging the idea of a wholesale exodus. It has asked a new department to the Ministry of the Interior called the National Emigration Office, which has been placed in charge of Privy Councillor Junk. It was established to give information and all possible assistance and advise German emigrants, but especially to keep track of the streams of Germans who are expected to leave Germany.

The number of persons who will leave or will be "shoved off" with the assistance of the government is estimated conservatively at 5,000,000.

The main streams of German emigration will be directed toward South America; that much already is evident. Intended emigrants are warned strongly against the United States in the general belief that Germans are not wanted there. Reports have been published here that the American labor unions were creating a new anti-foreign feeling in that country.

An Argentine immigration bureau has been established in Buenos Aires. The Argentine government pays part of the immigrants' expenses, including railway fare to destination after leaving Buenos Aires, and ten days' food and lodging.

Southern Brazil is a second favorite, followed by Mexico and Chile. The first 500 Germans are scheduled to arrive in Mexico in September. A large number for Paraguay also has been commenced.

Minard's Liniment Cures Diphtheria.

At twenty-one a man knows everything; at fifty he wishes he knew something.

There is nothing on earth that can get a fully sick in itself as a sheet of postage stamps.

W. N. U. 1271

## How To Get The News

Editors Are Only Human, Or At Least Almost Human

Day before yesterday a perfectly nice lady called up and with tears in her voice reported us for not mentioning the fact that she and a friend visiting her last week. We told her that she had not let us know that she had a visitor. Then she said, "Well, you should have known. I thought you were running a newspaper." Wouldn't that rattle your stapes! Some people think that the editor ought to be a cross between Argus and Anna Eva Fay. They seem to think that our five senses are augmented by a sixth that lets us know everything that happens, even if he hears, feels, taste or smell it too. Dear lady, editors are only human, or at least almost human. If you have a friend visiting you, if you are going away, or have returned from a visit out of town, if Johnny falls and breaks his arm, if your husband chops his toe instead of a stick of wood; if anyone happens to make a mistake, and happy or mad, call us up. Tell us about it. That's the way to get it in the paper—From the Sincere Reporter.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Canton District Is the Centre of This

Assam

China invented gunpowder and popularized fire-crackers. The cheapest kind of firecrackers is made of gunpowder mixed with a little sulphur, and paper with a covering of red paper, being regarded by the Chinese as bringing good luck. Alms is used to neutralize the evil of the explosion. The Canton district is the centre of this industry. The Chinese seem to use firecrackers upon every occasion—to send a parting greeting in wedding celebrations, on festivals and birthdays, and to dispel evil and bring good omens. China exports about \$500,000 a year.

Hard and soft corns both yield to the Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

Hamburg Ratsaken

London—Hamburg, which has been in the hands of Spartacists and Communists for a week, has been occupied by the government troops under Gen. Von Lettow Vorbeck. The Exchange Telegraph company dispatch from Copenhagen reporting the occupation says there was no fighting.

Expensive Fish

"Cheer up, old man, there's other fish in the sea."

Rejoice Sultan: "Yet, but the last one took all my bait."—Life.

## CUCUMBER PILES

In terrible rash on face which made skin sore and inflamed. Irritated face, itching, and burning. Could not sleep and had most foul breath. Took a course of Dr. Williams' Pink Pills before used Cuticura and after using 2 cakes of Soap and 1 box of Ointment was completely healed.

From signed statement of Miss Gladys Nieland, R. N. J. Brussels, Ont.

Cuticura Soap, Ointment and Cuticura Pills promote and maintain skin purity, skin comfort and skin health often when all else fails.

Price Limit For Wives

Marriage agencies in Japan are now limited to twenty-five pence fee on each match made. One peso for an introduction fee for a hunt for a life partner, and twenty-five more for actually binding two together as the legal partners. This arrangement cuts out all the sorbets, carriages, flowers, jewelry and other expenses of this country, and after all is more economical.

Worms in children work havoc. These pests attack the tender lining of the intestines and, if left to pursue their course, will ultimately perforate the wall, because these worms are of the hook variety that cling and feed upon interior surfaces. Miller's Worm Powders will not only exterminate the worms, of whatever variety, but will serve to repair the injury they have done.

Camouflaged Krupps

London.—The Krupp works at Munich have been sold to Americans, according to dispatches from Munich through newspapers there. It is added several industrial concerns in the Bavarian capital have also passed into U.S. hands.

An Odd Person

"How modestly she dresses, and sensibly!"

"Yes; that woman will do anything to attract attention."

## Kidney Back Pains Permanently Cured

Dr. Hamilton Guarantees Prompt  
and Thorough Cure

I can cure you. I have a remedy that has never failed in kidney disease. If you suffer from the terrible pain known as Dr. Hamilton's Pills of Maudslayi and Dr. Hamilton's Pills will guarantee Dr. Hamilton's Pills will restore the worst case of kidney suffering.

Pain in the back, sides and hips will be relieved.

Dizzy spells, headache and reeling sensations will be quickly remedied. Distressing bladder complications, frequent calls, brick dust and sediment I guarantee will entirely disappear under Dr. Hamilton's Pills.

If your run-down and languid condition can't be cured by Dr. Hamilton's Pills, then you are hopeless.

Dr. Hamilton's Pills have restored health and energy; they have built up constitutions that defied further inroads of kidney disease.

Put a vegetable remedy, free from injurious minerals like mercury and calomel, mild enough for children to use, where you can find a remedy in medicine to cure Dr. Hamilton's Pills?

To be candid, you can. Dr. Hamilton's Pills in yellow boxes, 25c.

## Brian Planning Air Supremacy

Government Subsidies Urged By  
Committee of Civil Investors

London—Great Britain is actively engaged in laying the foundation of world-wide aerial supremacy as complete as her maritime supremacy prior to the war. Her plans to achieve this important objective are being advanced before this country entered the war.

It is the opinion of the committee that aerial transportation will revolutionize her widespread empire and firmly weld it together by the speed that is the chief attribute of aircraft.

Realizing the importance aeronautics would play in the economic development of the world in general and the reconstruction period after the war in particular, the British Government appointed a Committee of Civil Aerial Transport Committee May 29, 1917, to consider and report to the Air Ministry with regard to:

(1) The steps that should be taken with a view to the development and regulation after the war of aviation for civil and commercial purposes from a domestic, imperial and an international standpoint.

(2) The extent to which it will be possible to utilize for the above purpose the trained personnel of the air force, the conclusion of peace may leave surplus to the requirements of the armed forces and the services of the United Kingdom and overseas dominions.

The report lays down the possibility of commercial air routes through British dominions, but says its connection therewith:

"We recognize, however, that military considerations must override all other."

By far the most remarkable portion of the report is the recommendation by Frank Bick, one of the members of the committee, when signing it. In it Mr. Bick says:

"The strategic position of this country in relation to the air, differs fundamentally from the strategic position in relation to the sea. So long as the shores of the North Atlantic are occupied by the leading civilized people, so long the British position is advantageous as a centre of sea power. But if air power is to usurp to any degree the place of sea power, and this seems probable so long as flight over land is appreciable advantage in aerial flight over sea, so the position of a country placed centrally as regards land would be superior to the position of a country placed centrally as regards water."

"The right to pass across international territory without let or hindrance, relief from varying terms and conditions attaching to flight which may be onerous and irksome, the absence of customs duties, the absence of tariff restrictions, and generally the absence of the apparatus for landing or artificially routing traffic, are all wanted. On the other hand, it is submitted that the case for an international settlement is strengthened."

The committee has exhaustively studied the possibilities of aerial

**MURRIN'S** Best, Refreshes, Soothes, Cleans—Keep Your Eyes Strong and Healthy. Buy It. Try It. You'll See. It's the only eye medicine that cures all eye troubles. Get it at all drug stores. Write for Free Eye Book. Murrin Company, Chicago, U.S.A.

transport with rigid dirigible airships. The investigation covers special arrangements made in the giant sixty-ton airships of the R-34 type developed by the naval section of the British air force.

General Maitland himself in a review of the airship-situation makes the following statement:

"The many practical advantages which the airship possesses for commercial purposes are not, perhaps, all that are apparent. It is a flying machine, and it is a flying machine."

"Present day airships, which in no way approach the limit of size, have a disposable lift of more than thirty tons, which enables them to embark on long flights without the necessity of descending for replenishment of fuel."

"There is no reason why an airship should not be fitted with engines as silent as those of a motor car. Sleeping accommodations can, in any case, be provided well away from the power plant, and there is complete absence of such noises as the ringing of wires and the clatter of the feet of passengers in an airplane."

"The power plant can be readily so arranged that no man units are required, and failure in the power plant does not involve immediate descent, while running repairs can easily be effected."

"Even with landing grounds only ten miles apart, an airplane would be compelled to fly at a minimum height of about 3,000 feet, whereas an airship can cruise safely a few hundred feet above the ground, which considerably reduces the discomfort of the passengers by affording them an opportunity of enjoying the scenery."

## Market For Canada's Flux

Great Opportunity for Exporters in This Country

Montreal—If Canada has the flux, then it is a splendid market opportunity for her in the United Kingdom. That was the opinion expressed in Montreal, at the invitation of the British Empire Exhibition, where an old established firm in London, who has visited many Canadian centres in order to ascertain the supplies of flux available for export.

Before the war, Mr. Rae pointed out, Great Britain secured the bulk of her flux from Russia, Holland and Belgium. At one stroke Russia is out of the market, while the supplies from Holland and Belgium are very limited. At one stroke Russia is out of the market, while the supplies from Holland and Belgium are very limited. At one stroke Russia is out of the market, while the supplies from Holland and Belgium are very limited.

On the south side of the mountain are Eskimo dwellings—"igloos" dug underground and walled and roofed with walrus. No trees grow in that region, but the natives of far northern Alaska have always a plentiful supply of driftwood, carried from the Yukon river by an ocean current that skirts the coast. The underground igloos (constructed to escape the heat of the sun) are so built as to form connecting rooms, with communicating doors that are mere holes through which the occupants are obliged to crawl on hands and knees.

The only ventilation is afforded by the vertebra of a whale (which serves as an air tube), thrust up through the roof.

On the north (or Arctic) side of the mountain are Eskimo dwellings—"igloos" dug underground and walled and roofed with walrus. ## SUNDAY SCHOOL LESSON

LESSON FOR JULY 13

BAPTISM

1. The Apostles' Creed (Matt. 28:19-20). The authority of Jesus (v. 13). God gave Him all authority in heaven and on earth. As mediator and coming king, He possessed all authority. This authority extends over all the material world, angels, wicked men, devils and His own people. God high-blessed Him and gave Him a name which is above every name (Phil. 2:9).

2. The obligation of the apostles (v. 19-20). There is no other way of salvation, for the entire matter of redemption is in His hands (Acts 4:12). Since God has so highly honored Him, it is extreme folly to expect to be saved while disregarding Him.

3. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

4. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

5. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

6. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

7. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

8. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

9. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

10. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

11. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

12. The baptism of the apostles (v. 19-20). It is to teach, that is, make disciples of the nations (v. 19). They were to make known to the whole world that Christ had died to save them from all iniquity, and to purify to himself a peculiar people, zealous of good works.

## Shock Left Her Weak and Nervous

COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weak, the nerves unstrung, the appetite poor, faint and weak. Feeling come over you, you can't sleep at night, and you wonder if life is worth living.

All these who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weak nerves.

Mrs. J. Bunyan, Pilot Butte, Mont. writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock in my whole system. I was so utterly weak and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the field without trembling all over."

Mrs. J. Bunyan, Pilot Butte, Mont. writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock in my whole system. I was so utterly weak and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the field without trembling all over."

## English Primate And Dry America

One of the Bravest Things History  
Had to Show

London, England—Presiding at the annual meeting of the Church of England Temperance Society at Lambeth Palace, the Archbishop of Canterbury described the drink prohibition in America as one of the most remarkable episodes in the whole history of social reform. "Our American brethren," he said, "always do things on an exceptional scale. There are never any half measures, or any doubt about what they mean."

His Grace said that he had found the strongest difference of opinion among Americans as to what would happen during the next year. If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, however, he thought it was wise to dogmatize as to what would be the result of prohibition. None of them, however, was in any doubt as to the thankful recognition they were given to what was one of the bravest things history had to show—of a nation grappling with a national evil.

In England the best general public opinion had supported the restrictive policy which had been in force even though it had been most severely applied. Where restrictions were thought likely to prove most unpopular, and proved nothing, it was the kind: "It would be fatuous today, where war was over, in regions where restrictions had proved to be not very unpopular, to relax these restrictions because a certain number of people had interests involved. They must be abolished, or every bit of influence they could to secure the continuation of restrictions which had been proved to work so well."

His Grace said that he had found the strongest difference of opinion among Americans as to what would happen during the next year. If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, however, he thought it was wise to dogmatize as to what would be the result of prohibition. None of them, however, was in any doubt as to the thankful recognition they were given to what was one of the bravest things history had to show—of a nation grappling with a national evil.

(Miss) M. E. PEERS

Chautauque, July 31—Aug. 6.

What is Empress doing re-  
garding Peace Celebration—  
Why not make it August 4?

A. L. Insley, of Virden, Man.,  
arrived in town, Tuesday.

Mr. and Mrs. G. Robson, of  
Bindloss, were visitors in town  
Tuesday. George is expecting  
a visit from his parents.

There will be mass in Empress  
on Sunday July 13, at 9 a.m.,  
and in Acadia Valley church at  
noon the same day, and also on  
Monday July 14.

Mrs. Rogers, provincial sec-  
retary of the Alberta Women's  
Institutes will give an address  
Tuesday, evening, July 22, at  
8 p.m. at the Social Plains  
schoolhouse. A program also will  
be given.

Members of the Bindloss  
tennis club were visitors to Em-  
press on Monday, and indulged  
in some friendly games of ten-  
nis with members of the local club.

## TRAIN TIMES (Fast Time)

WEST  
No. 670 arrives 6 p.m.,  
Monday, Wednesday, and Friday  
No. 671 leaves 7 a.m.,  
Tuesday, Thursday and Saturday

Stores close at 1 p.m., Friday.  
Social Plains Picnic, July 11.  
Mrs. A. Sapp, of Machin,  
Wash., is the guest of her  
daughter, Mrs. R. L. Tucker.

Mrs. G. H. Durr and family,  
left the first of the week for a  
visit with relatives at Loversna,  
Sask.

The old Union Bank building  
was removed on Tuesday,  
to Pullinville, to be made into a  
dwelling-house.

Mrs. R. S. Poole, returned  
from Victoria, B.C., on Mon-  
day, and will make her home  
here with her son, "Reg."

Mrs. G. Malton, and daughter,  
"Mollie," of Swallow, Alta.,  
arrived here on Monday, and  
are the guests of Mr. and Mrs.  
S. E. Peters.

Messrs. J. Cusack and H. P.  
Gregg, returned from Banff, on  
Monday. They report the only  
crop they saw on their journey  
was adjacent to our town.

In a test case, tried before the  
Imperial Privy Council, at  
London, Eng., on July 2, the  
right of the three prairie provin-  
ces to grant divorces, was  
affirmed.

Road-foreman, Jesse Bishop,  
of Medicine Hat, was here  
on Tuesday. Mr. Bishop, has  
a full road gang working  
near Bindloss repairing the  
roads.

Mrs. H. J. Duff, accompanied  
by her daughter, "Betty," left  
on Monday for an extended  
visit at the home of her par-  
ents in Scotland.

There is much chirping in the  
home of F. D. Sparrow, and  
we are assured that the new-  
comer is a bird. Questioned  
as to the probable name of his  
daughter, Frank says, "Ruby."

Crop prospects—not as good  
as we expected, but away bet-  
ter than some. The north  
country has the appearance of  
cutting a medium crop. While,  
with rain intervening there is  
still chances of a good quantity  
from the south country.  
Here's hoping.

Miss Vera Saunders, on Thurs-  
day last, had the misfortune to  
trip and fall, when alighting  
from an automobile, fracturing  
and breaking the two bones of  
her right forearm. She was at-  
tended to by Dr. MacCharles  
and left for Swift Current, on  
Saturday, accompanied by her  
mother, to have the injury ex-  
amined under the X-rays.

An alarm of fire was given in  
town on Friday last, when  
Master Pat MacCharles, in play-  
ing with matches, accidentally  
set fire to his father's garage.  
The alarm was given by Char-  
ley Smith who was driving  
into town. The fire engine and  
water tank were quickly hauled  
to the scene of the blaze,  
and the flames soon extinguished.  
Damage done to the  
garage was very slight.

EAST  
No. 65 arrives 10 p.m.,  
No. 66 leaves 9:45 a.m.  
Every week day, except Sundays

Mr. and Mrs. Scott Brown  
have as their guest, Mr. J. J.  
Hackney, brother of Mrs. Scott  
Brown. Mr. Hackney, who  
succeeded Mr. Carson, at Cal-  
gary, as registrar under the  
Military Service Act, is on his  
way to his home in Toronto.  
The registrar's office at Calgary  
being closed, the existing work  
will be attended to by the  
Registrar's office at Regina.

wan, farmer and soldier, deceased,  
PUBLISHED in the Surrogate Court  
Act, being Chapter 84 of the Revised  
Statutes of Saskatchewan and amend-  
ing Acts.

NOTICE IS HEREBY GIVEN that all  
persons having claims against the estate  
of George Herbert Smith, late of W. 34,  
25-28, W. 36, in the Province of Saskatche-  
wan, who died on or about the 9th  
day of April, A.D. 1917, are on or be-  
fore the 17th day of July, A.D. 1918,  
required to deliver or send by post prepa-  
id to The Standard Trust Company, Saskatche-  
wan, Saskatchewan, Administrator of the  
said estate, full particulars of their  
claims duly verified by Statutory Declara-  
tion, together with a statement of the  
security, if any, held by them.

AND TAKE NOTICE that after the  
said mentioned date the Administrator  
will proceed to distribute the assets of  
the Estate among the parties entitled  
thereto, having regard only to the claims  
of which it shall then have notice, and  
the said Administrator will not be liable  
for the said assets or any part thereof to  
any person or persons of whose claim it  
shall not have had notice at the time of  
such distribution.

DATED AT SASKATCHEWAN, Saskatche-  
wan, this 11th day of June, A.D., 1918.  
THE STANDARD TRUST COMPANY  
Administrator of the said Estate.

## Here is a Practical Outfit

This Case 15-27 H. P. Oil Tractor pulls three plows  
in hard plowing—four plows under favorable conditions.  
It has 25 per cent. reserve power. It burns kerosene  
successfully and economically. All gears are cut steel en-  
gined and run in oil. The one-piece main frame insures  
permanent alignment of all gears, shafts and bearings.

It is also adaptable for all kinds of belt work. It  
easily handles a Case 20x60 thrasher equipped with  
w/d stacker and feeder. Its pulley is properly placed  
for convenient "lining-up" to a driven machine.

We recommend the 3-bottom automatic lift Grand  
Dejour plow for use with the 15-27 tractor. This makes  
an ideal combination for the average size farm. It is  
neither too large nor too small. It can plow from 9 to 14  
acres in ten hours.

The plow is light, but owing to its simple construc-  
tion it is strong and durable.  
We will be glad to explain this rig in detail. Write  
or call us today. Investigate before you buy.

THE ALBERTA MACHINE SHOP  
W. C. BOYD, PROPRIETOR

NOTICE: We want the public to know that you place no NOT the  
Case plow made by the J. L. Case Plow Works.
